

Phase II-V Chemical Contaminants - Synthetic Organic Compounds Rule Implementation

As a result of a recent analytical fee review, the State Environmental Laboratory has adjusted (decreased) the following fees, effective January 1st, 2018.

EPA 507 is now \$253.98

EPA 515.3 is now \$144.38

The State Environmental Laboratory (SELS) performs the following analyses for regulated synthetic organic compounds (SOCs) for the fees listed. Fee is charged per method, not compound.

Compound (Drinking Water Regulated SOC)	SELS Method	Fee
<i>1,2-Dibromo-3-chloropropane (synonyms: DBCP)</i>	EPA 504.1	154.45
<i>1,2-Dibromoethane (synonyms: EDB, Ethylene dibromide)</i>	EPA 504.1	
<i>Alachlor (synonyms: Lasso)</i>	EPA 507	253.98
<i>Atrazine</i>	EPA 507	
<i>Simazine</i>	EPA 507	
<i>Chlordane (tech.)</i>	EPA 508	246.20
<i>Endrin</i>	EPA 508	
<i>gamma-BHC (synonyms: Lindane, gamma-Hexachlorocyclohexane)</i>	EPA 508	
<i>Heptachlor</i>	EPA 508	
<i>Heptachlor epoxide</i>	EPA 508	
<i>Hexachlorobenzene</i>	EPA 508	
<i>Hexachlorocyclopentadiene</i>	EPA 508	
<i>Methoxychlor</i>	EPA 508	
<i>Toxaphene (synonyms: Chlorinated camphene)</i>	EPA 508	
<i>2,4-D</i>	EPA 515.3	
<i>Dalapon</i>	EPA 515.3	
<i>Dinoseb (synonyms: 2-sec-butyl-4,6-dinitrophenol, DNBP)</i>	EPA 515.3	
<i>Pentachlorophenol</i>	EPA 515.3	
<i>Picloram</i>	EPA 515.3	
<i>Silvex (synonyms: 2,4,5-TP)</i>	EPA 515.3	
<i>Carbofuran (synonyms: Furaden)</i>	EPA 531.2	171.27
<i>Oxamyl</i>	EPA 531.2	
<i>Glyphosate (synonyms: Round-up)</i>	EPA 547	188.11
<i>Polychlorinated Biphenyls (synonyms: PCBs) *This is a screening analysis only. If PCBs are detected, the approved analytical method will be required. SELS does not perform the approved drinking water method.</i>	EPA 608 (screen)	166.05

The State Environmental Laboratory does not perform all analyses that may be required for synthetic organic compounds (SOCs) monitoring. We do not perform the methods for the following compounds: Benzo(a)pyrene, Bis(2-ethylhexyl)adipate, Bis(2-ethylhexyl)phthalate, Diquat, and Endothall (using methods EPA 525, EPA 548 and EPA 549). However, we can provide information on accredited laboratories that are able to perform these analyses.

If you have any further questions or would like to schedule SOC analysis with the State Environmental Laboratory, please contact us.
