COMMENTS:

.
 .
 FY 09
 .
 REQ #2920002898
 .
 PRODUCT JUSTIFICATION:
 This Archon autosampler will support DEQ/CSD's ongoing analytical efforts in water, soil, and wastewater using EPA method 8260. It will replace a much older autosampler on an existing GC/MS system. Currently, the laboratory owns and operates several Archon autosamplers and our staff is proficient in their programming, operation, and maintenance. They have proven to be very rugged, reliable autosamplers for water and soil analysis. Their standalone nature precludes staff having to install and learn additional software interfaces as some other autosamplers require.
 .
 CSD REQUESTS RIGHT TO REVIEW ALL BIDS
