### **Water Use Advisory Lifted for Fairmont**

The Oklahoma Department of Environmental Quality (DEQ) has announced that the water use advisory for Fairmont has been lifted. The water is now safe for human consumption. DEQ staff has verified that there is adequate chlorine throughout the distribution system for disinfection, there is sufficient water pressure, and bacteriological samples indicated no bacteriological contamination.

DEQ is responsible for regulating more than 1,600 public water supplies in the State of Oklahoma. All public water supplies are required to regularly submit samples to DEQ for routine testing to ensure that water is safe for human consumption.
