

School Recycling Program Implementation Plan

Initial decisions prior to implementation:

1. Designate an on-site recycling coordinator:

(Often, plant services/maintenance supervisor is most logical choice; teachers are needed for promotion/collection)

2. Designate members of recycling committee:

3. Develop a goal statement/philosophy supporting program. Why are we doing this? (May not be necessary if target participants are positive about program.)

4. Which materials will be collected?

White paper separated	Newspaper	Aluminum and/or steel cans
Mixed paper only	Cardboard	Plastic bottles
Other		

5. Determine markets and collection/delivery logistics.

RECYCLABLE	MARKET	METHOD OF DELIVERY

6. Will sorting process for paper occur? Yes _____ No _____

If yes, at what stage of process and by whom?

7. Collection containers

Suggested types: Copy paper cases (decorated or plain), special paper collection boxes provided by vendor, or plastic 18-gallon curbside bins for classrooms, poly-carts on wheels to collect from classrooms, large poly-carts for storage in central area until vendor picks up.
